

Request for Quotes – Depreciation Consultant to the Public Staff

April 2021

Introduction

The Public Staff – N.C. Utilities Commission is a state agency that represents customer interests in proceedings before the North Carolina Utilities Commission. The Public Staff is independent of the Commission.

The Public Staff may, with approval, hire independent contractors to provide subject matter expertise, pursuant to N.C. General Statute 62-15(h):

The executive director is authorized to employ, subject to approval by the State Budget Director, expert witnesses and such other professional expertise as the executive director may deem necessary from time to time to assist the public staff in its participation in Commission proceedings, and the compensation and expenses therefor shall be paid by the utility or utilities participating in said proceedings. Such compensation and expenses shall be treated by the Commission, for rate-making purposes, in a manner generally consistent with its treatment of similar expenditures incurred by utilities in the presentation of their cases before the Commission. An accounting of such compensation and expenses shall be reported annually to the Joint Legislative Commission on Governmental Operations and to the Speaker of the House of Representatives and the President Pro Tempore of the Senate.

The Public Staff seeks a consultant to assist with review of a depreciation study and the prudence and reasonableness of depreciation expense in a general rate case filed by Public Service Company of North Carolina, Inc., on April 1, 2021, in Docket No. G-5, Sub 632.

Scope of Work

The consultant will review a depreciation study prepared by Gannett Fleming Valuation and Rate Consultants, LLC, which updates depreciable assets.

The typical general rate case timeline in natural gas cases is approximately nine months from the filing of the application to the issuance of an order by the Utilities Commission. The Public Staff normally has approximately five months to complete its review of the application and submit written testimony setting forth its findings and recommendations. An evidentiary hearing is usually held approximately one month later. The evidentiary hearing is likely to be held in September/October 2021. An investigation into the Depreciation Study and the prudence and reasonableness of the depreciation expense will require more specialized expertise and more resources than the Public Staff has available in-house. The Public Staff seeks to hire a consultant with the appropriate

expertise and resources to conduct such an investigation. Ideally, we would like to have a contract in place with the consultant ready to perform by May 1, 2021.

The scope of work will include:

1. Review of a Depreciation Study prepared by Gannett Fleming Valuation and Rate Consultants, LLC.
2. Review of request for depreciation expense increase.
3. Preparing and submitting bi-weekly reports on the progress of the investigation or to-date results of the investigation as appropriate.
4. Being available for weekly conference calls with the Public Staff.

As part of this scope of work, the consultant will

- Prepare written discovery questions and document requests for utility response;
- Participate with Public Staff personnel in site visits, interviews, and conference calls with the utilities;
- Communicate regularly with Public Staff personnel regarding project status and planning.
- Submit a final report to the Public Staff with detailed analysis and recommendations.
- Attend evidentiary hearings before the Commission.

Issues related to the Depreciation Study and the prudence and reasonableness of depreciation expense will be governed by litigation deadlines, so the consultant must complete its duties within the time frames specified by the Public Staff. Thus, the consultant must have available sufficient staff resources to review and provide analysis of voluminous information within a few months. Time is of the essence in completing reviews for the Public Staff.

There is a possibility that the consultant will be called upon to provide written and oral testimony in a litigated proceeding before the Utilities Commission. Therefore, preference will be given for experience in testifying in legal proceedings, though that is not a requirement.

The Public Staff cannot easily predict the consultant's time commitment for this project, so in addition to a not-to-exceed total contract dollar value based on an estimated one-year timeframe for the work, the Public Staff expects to receive quotes based on

personnel hourly rates plus a schedule of any incidental charges (e.g., photocopying costs).

Consultant must bill at least monthly. Invoices must include a list of each consultant employee (or contractor if approved in advance by the Public Staff) who worked on the billed items, his/her hourly rates, the number of hours worked, the nature of the work, the N.C. Utilities Commission docket number of the case being worked on.

Consultant may be required to execute confidentiality agreements with the utilities or other parties whose documents are being reviewed by the Public Staff and consultant.

Consultant shall be an independent contractor. The Public Staff shall have the right to unlimited use of all work product prepared by the consultant pursuant to the contract executed under this RFQ.
